

Clay Nests

What kind of nest will you make?

What you need:

Natural clay, loose natural parts such as leaves and twigs

Let's get started!

- Roll a piece of clay into a ball
- Flatten your clay ball into a pancake by smooshing your hands together
- Press the centre of the pancake in with your thumbs to create a nest shape
- Add sturdy loose parts such as leaves and twigs around the outside of your nest
- Add soft, cozy material such as paperbark to the inside of your nest

Only collect materials that have already fallen to the ground!

Let's get creative!

- Add some eggs! Make small clay balls or find some small stones or seeds

Can't find natural clay?
Make some homemade play dough!
