

# Life Cycles

## Stage 2 Science and Technology: Living World

Centennial Parklands is home to a variety of living things, all with a unique life cycle to investigate. Plan and conduct an investigation to discover invertebrate life, spot one of the Parklands' famous eels and help it complete its life cycle by designing a migration invention and visit the Flying Foxes in Lachlan Wetland to learn about their role in the life cycle of a fig tree.

### The excursion activities will include:

- Bug hunt
- Bushwalking and a visit to Lachlan Wetland
- Problem solving using natural materials

### Syllabus Outcomes:

- **ST2-1WS-S** questions, plans, and conducts scientific investigation, collects and summarises data and communicates using scientific representations
- **ST2-2DP-T** selects and uses materials, tools, and equipment to develop solutions for a need or opportunity
- **ST2-4LW-S** compares features and characteristics of living and non-living things
