

From my Window...

Let's send our minds outside to play!

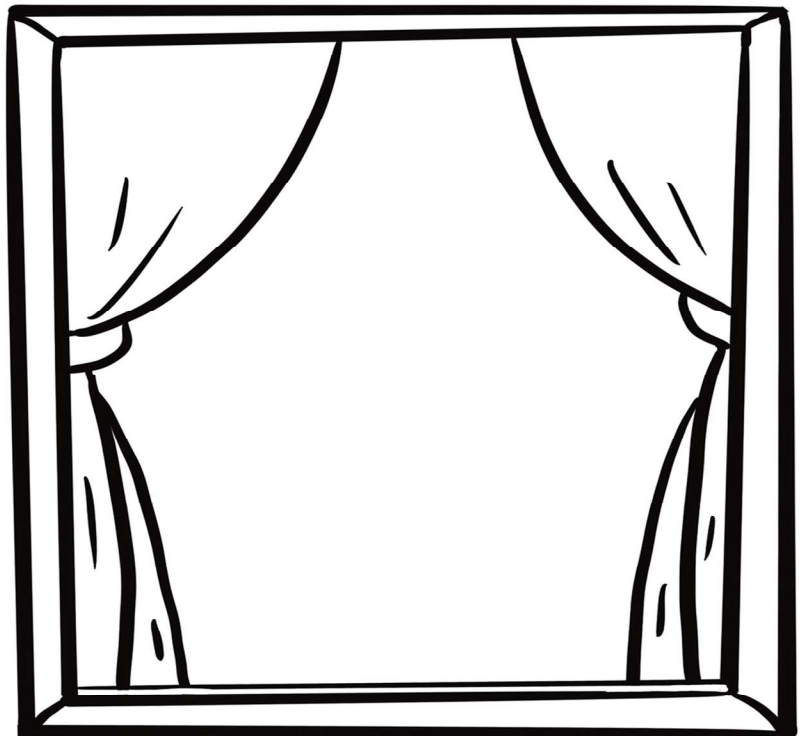

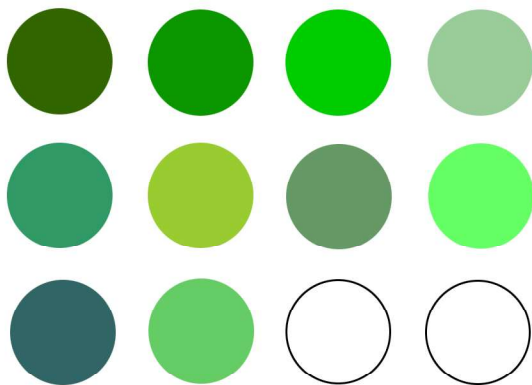

Getting started:

Print out the activity sheet and have fun counting and drawing all the things you can see and hear.

What can I see?

Draw the view from your window.

How many different greens can you see?

What can I hear?

Listen carefully... what can you hear close up? What can you hear far away?

bzzzzzzzzzz

Try mimicking some of the sounds you hear.

Draw the things you can hear.
