

CENTENNIAL PARKLANDS NATURE PLAY

Tower of sticks

Towers and hours of fun!

What you need:

A variety of sticks with different thicknesses and lengths, natural materials (fruits, nuts, leaves, pebbles, flowers, etc.)

Let's get started!

- Collect your sticks and sort them into piles from small to large

Let's get building!

- Experiment with different ways of constructing with the sticks to build a stable tower
- If it falls down, start again!
- Add decorations using natural materials

Challenge yourself!

- Can you build the tallest tower?
- Can you build the tiniest tower using little twigs?
- Can you build the strongest tower?
- Can you build the neatest tower? The messiest tower?

Did you know?

- There are lots of amazing towers all around the world
- The Tokyo Skytree is 495 metres tall!
- Have a look online. Can you find the tallest tower in the world? Can you find the oldest?
