

Habitat Explorers

Stage One Science and Technology: Living World

Students will explore the life of a Parkland animal and investigate how it grows and interacts with other plants and animals and what its habitat needs are for survival.

The excursion activities will include:

- Minibeast hunt, dip-netting, or bird walk (seasonal)
- Habitat building using natural materials
- Swamp walk to spot animals in their natural environments

Syllabus Outcomes:

- **ST1-1WS-S** observes, questions and collects data to communicate and compare ideas
- **ST1-2DP-T** uses materials, tools and equipment to develop solutions for a need or opportunity
- **ST1-4LW-S** describes observable features of living things and their environments
