Preliminary Sound Monitoring Report

Event : Listen Out 2019
Date : October 4th & 5th

This document is intended to fulfil the requirements of the preliminary sound monitoring report and complies with the EPA Notice of Preventive Action governing this event (Notice No 1002139), dated 26-Feb-2001, and Variations of Prevention Notice No 1521549, dated 18-Feb-2015

Event Compliance

On initial examination of the data collected at Listen Out 2019, the event complied with the EPA prevention notice governing this Category 3 event.

Hours for Rehearsals, Sound Checks and the Main Event

The sound checks, rehearsals, and the main event were held within the licensed hours nominated.

Noise Monitoring

Noise monitoring was carried out in accordance with the Prevention Notice.

The initial investigation of the sound pressure level measurements collected at the perimeter of the event site, while the sound system was in use, can be summarised as follows:

Sound Tests and Rehearsals:

Zero (0) exceedance of the 65dB(A) limit was identified at the other perimeter locations.

Zero (0) exceedance of the 85dB(C) limit was identified at the other perimeter locations.

Main Event:

Zero (0) exceedance of the 65dB(A) limit was identified at the other perimeter locations.

Zero (0) exceedance of the 85dB(C) limit was identified at the other perimeter locations.

A more comprehensive analysis of the perimeter measurements for the event will be provided in the final report.

Sound-Related Complaints Received

As advised by the Centennial Parklands and Moore Park Trust there are Twenty-three (23) complaints reported to the complaint hotline.

Friday 4th October 2019

11 complaints registered with the complaint hotline for this event.

Saturday 5th October 2019

11 complaints registered with the complaint hotline for this event.

More detailed information pertaining to the complaints received, and the actions taken in response to those complaints, will be provided in the final report.

Yours faithfully,
The P.A. People
